

# ATTENTION

February 24, 2025

Dear Parents and Guardians,

We hope this message finds you well! As part of our ongoing efforts to maintain a healthy school environment, we want to inform you that the middle/high school will be conducting routine head lice checks for all students in the coming weeks.

Lice is a common issue among school-aged children, and regular checks help ensure that any infestations are caught early, minimizing the chance of spreading. Early detection is key to preventing lice from becoming a more widespread issue, and we want to work together with families to promote the well-being of all students.

The benefits of these school checks include:

- Prevention of spread: By identifying lice early, we can reduce the chance of an outbreak among students.
- Peace of mind: Parents will be notified if lice are detected, allowing for quicker treatment and preventing further concerns.
- Educational opportunity: Students learn the importance of hygiene and self-care, and can help prevent lice through simple practices like avoiding head-to-head contact and sharing personal items.

We ask that you also continue to check your child's hair regularly and contact your healthcare provider for any treatment if necessary.

Thank you for your continued support in keeping our school community healthy and safe. If you have any questions or concerns, please don't hesitate to reach out.

Warm regards,  
April Margaritis  
Middle/High School Principal
