

Student Senate

Mio-AuSable Schools

The Student Senate is a leadership body made up of representatives from each grade level who work together to strengthen the connection between students, staff, and the wider school community. Members of the senate give students a voice in school decisions, plan events and activities that build school spirit, and advocate for the needs and concerns of their peers. By promoting teamwork, responsibility, and service, the Student Senate plays a key role in creating a positive, inclusive, and engaging high school experience.
