Asbestos Management Plan

The Mio-AuSable School District presently operates an asbestos control program in accordance with the Asbestos Hazard Emergency Response Act (AHERA) of 1986, 1987 as amended. This plan is presently on file at the State of Michigan Asbestos Program and the EPA Region V in Chicago, IL. All known asbestos containing materials (ACMs) have been documented in the "Management Plan" and are available for public review in the Central Office located at 1110 W 8th Street, Mio, MI.

The school satisfies the requirements of AHERA and OSHA by performing periodic surveillance every six months to assure that conditions do not change and has documented annual asbestos training for all of its affected employees. For additional information regarding the ACMs in the district, please contact the Central Office at 989-826-2401.
